Dear Mr. Crossley:

The U.S. Environmental Protection Agency (EPA) is continuing its investigation into the release, or the threat of release, of hazardous substances, pollutants or contaminants into the environment at the referenced proposed Superfund Site (Site). In a letter issued to you on February 10, 1989, EPA requested that you furnish all available information concerning the disposal or arrangement for disposal of hazardous substances, at the Crossley Farm on Huff's Church Road in Hereford Township, Pennsylvania. EPA has reviewed your response and determined that additional information is needed.

Pursuant to the authority of Section 104(e) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended ("CERCLA"), 42 U.S.C. § 9604(e), you are required to provide additional information and furnish all documents in your possession, custody or control, or in the possession, custody or control of any of your employees or agents, which concern, refer, or relate to hazardous substances as defined by Section 101(14) of CERCLA, 42 U.S.C. § 9601(14), which were not furnished in your previous response.

The provisions in Section 104 of CERCLA, 42 U.S.C. § 9604 authorize EPA to pursue penalties for failure to comply with this section or for failure to respond adequately to required submissions of information. In addition, providing false, fictitious, or fraudulent statements or representations may subject you to criminal penalties under 18 U.S.C. § 1001. The information you provide may be used by EPA in administrative, civil, or criminal proceedings.
